

# A Trip To The Dane County Regional Airport

We are going to take a trip to the airport.

I am going on an airplane.

We will drive to the airport.

At the airport, we will go to the counter to check-in.

It is very important to stay close to my family at the airport.

We will wait in a line to go through security.

When it is our turn, we will take our shoes off and put them in a gray box.

We will also put our bags in the gray box.

The security agent will look at my shoes and bag with an x-ray machine.

When it is my turn, I will walk through the security doorway.

I may have to stand very still. This is part of security. It helps people be safe when they fly.

When this is done, I get my shoes and bag back.

I will put my shoes back on.

After my shoes are on, I will walk to the gate.

At the gate, I will wait for the plane.

I can look at books or play games while waiting for the plane.

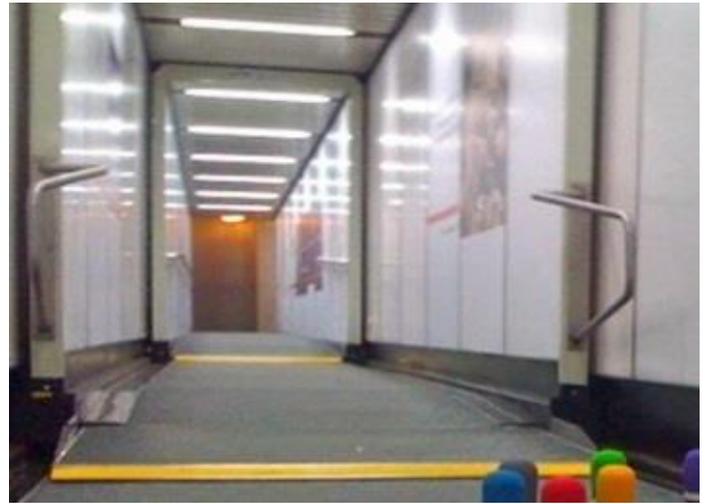

When it is time to get on the plane, I will wait in line again.

I will give my ticket to the person at the door.

Then I will walk down the hallway to the plane.

I will look for my seat number and then sit down.

I will put my bag away.

I will fasten my seatbelt.

I will listen to the flight attendant.

I can look at books or play games while sitting on the plane.

There will be a lot of people on the plane. I need to keep my voice quiet.

When it is time to get off the plane, I will stand up and wait my turn.

I will walk down the hallway and into the gate area.
